## SPECIES KEY

- |                                   |   |
|-----------------------------------|---|
| 1. Dodd's Hawthorn                | Crataegus doddsii                                 |
| 2. Kentucky Coffeetree            | Gymnocladus dioica                                |
| 3. Cheyenne Privet                | Ligustrum vulgare 'Cheyenne'                      |
| 4. Blue Velvet Honeysuckle        | Lonicera korolkowii var. floribunda               |
| 5. Threelobe Sumac                | Rhus trilobata                                    |
| 6. Hawthorn sp. 'Lautii'          | Crataegus lauta                                   |
| 7. European Buckthorn             | Rhamnus cathartica                                |
| 8. Athabasca Crabapple            | Malus 'Athabasca'                                 |
| 9. Chilco Crabapple               | Malus 'Chilco'                                    |
| 10. Forever Gold Potentilla       | Potentilla fruticosa var. 'purdomii'              |
| 11. Bitmore Ash                   | Fraxinus biltmoreana                              |
| 12. Apache Plume                  | Fallugia paradoxa                                 |
| 13. Amur Maple                    | Acer ginnala                                      |
| 14. Dwarf Russian Almond          | Prunus tenella                                    |
| 15. Russian Hawthorn              | Crataegus ambigua                                 |
| 16. Cheyenne Early Lilac          | Syringa obata                                     |
| 17. Horse Chestnut                | Aesculus hippocastanum                            |
| 18. Cheyenne Mockorange           | Philadelphus lewisii 'Cheyenne'                   |
| 19. Green Ash                     | Fraxinus lanceolata pennsylvanica                 |
| 20. Wavyleaf Oak                  | Quercus undulata                                  |
| 21. American Linden               | Tilia americana                                   |
| 22. Tidy Caragana                 | Caragana microphylla 'Tidy'                       |
| 23. Encampment Willow             | Salix alba 'Encampment'                           |
| 24. Japanese Tree Lilac           | Syringa reticulata                                |
| 25. White mulberry                | Morus alba  |
| 26. Red mulberry                  | Morus rubra                                       |
| 27. Pink Lady Euonymus            | Euonymus alatus 'Pink Lady'                       |
| 28. European Birdcherry           | Prunus padus                                      |
| 29. Sutherland Caragana           | Caragana arborenses pyramidalis 'Sutherland'      |
| 30. Yellow Buckeye                | Aesculus octandra                                 |
| 31. Maximowicz Hawthorn           | Crataegus maximowicziana                          |
| 32. Northern Red Oak              | Quercus rubra (historically known as Q. borealis) |
| 33. Hoptree                       | Prelea isophylla 'pubescens'                      |
| 34. Downy Hawthorn                | Crataegus mollis                                  |
| 35. Tatarian Maple                | Acer tataricum                                    |
| 36. Hawthorn 'dunbrivensis'       | Crataegus dunbrivensis                            |
| 37. Russian Hawthorn              | Crataegus ambigua                                 |
| 38. Maximowicz Hawthorn           | Crataegus maximowiczii                            |
| 39. Sungari Rockspray Cotoneaster | Cotoneaster racemiflora soongorica                |
| 40. Little-leaf Linden            | Tilia cordata                                     |
| 41. Peking Tree Lilac             | Syringa pekinensis                                |
| 42. Dahurian buckthorn            | Rhamnus davurica                                  |
| 43. Korean Barberry               | Berberis koreana                                  |
| 44. European White Elm (Russian)  | Ulmus laevis                                      |
| 45. Texas Buckeye                 | Aesculus arguta                                   |
| 46. Back Hills Spruce             | Picea glauca 'Densata'                            |
| 47. Rosy Bloom Crabapple          | Malus 'Morden'                                    |
| 48. Pink Weeper Crabapple         | Malus 'Pink Weeper'                               |
| 49. Japanese Flowering Crabapple  | Malus floribunda                                  |
| 50. Trumpet Gooseberry            | Ribes leptanthum                                  |
| 51. Chokecherry                   | Prunus virginiana                                 |
| 52. Haugmann Crabapple            | Malus sylvestris                                  |
| 53. Sino Apricot                  | Prunus mandshurica 'Sino'                         |
| 54. Hulan Apricot                 | Prunus mandshurica 'Hulan'                        |
| 55. Manchurian viburnum           | Viburnum burckianum                               |
| 56. Usurian Pear                  | Pyrus ussuriensis                                 |
| 57. Hung Hai Tung Crabapple       | Malus asiaticus                                   |
| 58. Bur Oak                       | Quercus macrocarpa                                |
| 59. New Mexican Privet            | Foresteria neo-mexicana                           |
| 60. Oakleaf mountainash           | Sorbus hybrida                                    |
